and lymphoedema care

Learning with **Accelerate Academy**

Developing skills in leg ulcer management –
a multi-disciplinary approach

RCN accredited 5-day online course

This
programme
will give the
candidate
**30 CPD
credits**

About your course

At Accelerate, education matters to us – a lot. It is an important part of our work. It enables transformations in local services, healing rates and patient experience.

The effective management of complex chronic wounds requires specialist skills, knowledge and understanding. We firmly believe in the importance of education and the sharing of expertise and experience.

This course is far more than a simple 'how to' guide. It will provide enhanced skills, develop critical thinking and encourage creativity in the management of these complex wounds.

You will be working with national experts and key opinion leaders who are skilled in the creative and person centred approach to leg ulcer management. Our people regularly present their work at conferences and events in the wound management arena and are recognised as innovators and leaders in their field.

This is a competency based five day leg ulcer online training programme aimed at those who manage patients with lower limb wounds and attracts 30 CPD points towards study hours.

Learning outcomes

- Provide holistic assessment of patients with lower limb wounds based upon best evidence based care
- Understand vascular assessment and the use of different compression modalities to enhance practical skills and patient outcomes
- Become proficient in the use of doppler, enhanced compression bandaging and hosiery measuring and fitting

This programme has been accredited by the RCN Centre for Professional Accreditation until 7 March 2021.

Accreditation applies only to the educational content of the programme and does not apply to any product.

The RCN cannot confirm competence of any practitioner.

About your course

How the course is run

The sessions will be held using a virtual learning environment (VLE) with informative webinars, Q & A, guided learning and one to one sessions.

You will need to have access to a laptop, tablet or computer with video and sound capability so you can access the VLE effectively. You will also need peace and quiet.

We will be using the chat, break out and polling features of our VLE during the course to make the session interactive and we would ask you to participate as if in a face to face situation.

This programme has been accredited by the RCN Centre for Professional Accreditation until 7 March 2021.

Accreditation applies only to the educational content of the programme and does not apply to any product.

The RCN cannot confirm competence of any practitioner.
