This  
programme  
will give the  
candidate  
**6 CPD  
credits**

# About your course

At Accelerate, education matters to us – a lot. It is an important part of our work. It enables transformations in local services, healing rates and patient experience.

The effective management of complex chronic wounds requires specialist skills, knowledge and understanding. We firmly believe in the importance of education and the sharing of expertise and experience.

This course is far more than a simple 'how to' guide. It will provide enhanced skills, develop critical thinking and encourage creativity in the management of these complex wounds.

You will be working with national experts and key opinion leaders who are skilled in the creative and person centred approach to leg ulcer management. Our people regularly present their work at conferences and events.

**This is a one day online course for Leg Ulcer Specialist Nurses, Tissue Viability Nurses and anyone with an interest in lower limb ulceration who is already competent in the application of compression bandaging.**

## Learning outcomes

- What makes a lower limb wound complex?
- When to use higher levels of compression than standard 40mmHg
- The biomechanics of mobility and gait to enhance healing potential
- Advanced bandaging skills including strapping to manage retro-malleolus ulcers
- How to manage complex ulcers once healed

This programme has been accredited by the RCN Centre for Professional Accreditation until 17 August 2021. Accreditation applies only to the educational content of the programme and does not apply to any product. The RCN cannot confirm competence of any practitioner.

# About your course

## How the course is run

The sessions will be held using a virtual learning environment (VLE) with informative webinars, Q & A, guided learning and one to one sessions.

You will need to have access to a laptop, tablet or computer with video and sound capability so you can access the VLE effectively. You will also need peace and quiet.

We will be using the chat, break out and polling features of our VLE during the course to make the session interactive and we would ask you to participate as if in a face to face situation.

This programme has been accredited by the RCN Centre for Professional Accreditation until 17 August 2021.

Accreditation applies only to the educational content of the programme and does not apply to any product.

The RCN cannot confirm competence of any practitioner.
