Advanced practice in lower limb ulceration

RCN accredited 2-day course - virtual
and face to face options available

This
programme
will give the
candidate
**12 CPD
credits**

About your course

At Accelerate, education matters to us – a lot. It is an important part of our work. It enables transformations in local services, improved healing rates and patient experience.

The effective assessment and management of lower limb wounds requires skills, knowledge and understanding. We firmly believe in the importance of education and the sharing of expertise and experience.

This course builds on the existing skills of participants who are already regularly managing patients with lower limb problems and wish to increase their knowledge and practical skills further.

You will be working with national experts and key opinion leaders who are skilled in the creative and person centred approach to leg ulcer management. Our people regularly present their work at conferences and events in the wound management arena and are recognised as innovators and leaders in their field.

This is a competency based two day training programme aimed at those who manage patients with lower limb wounds and attracts 12 CPD points towards study hours. Participants must already be competent in the application of compression bandaging.

Learning outcomes

- What makes a lower limb wound complex
- When to use higher levels of compression than standard 40mmHg
- The biomechanics of mobility and gait to enhance healing potential
- Advanced bandaging skills including strapping to manage retro-malleolus ulcers
- How to manage complex ulcers once healed

This programme has been accredited by the RCN Centre for Professional Accreditation until 28th June 2022.

Accreditation applies only to the educational content of the programme and does not apply to any product.

The RCN cannot confirm competence of any practitioner.

Dates and times

09:00 - 16:00

Both days must be completed for each cohort and for the fully virtual programme, there is an additional mandatory 1-2-1 coaching session.

About your course

How the course is run

The programmes will have a variety of formats from completely virtual to completely face to face in the Accelerate Academy at St Joseph's Hospice, Hackney, London.

The virtual sessions will be held using the MS Teams virtual learning environment (VLE) with informative webinars, discussion, Q & A and one to one sessions.

We have an Academy Moderator at Accelerate who can support you in digitally preparing for the course should you need assistance.

You will need to have access to a laptop, tablet or computer with video and sound capability so you can access the VLE effectively. You will also need peace and quiet.

We will be using the chat, break out and polling features of our VLE during the virtual courses to make the sessions interactive and we would ask you to participate as if in a face to face situation.
