Skin conditions, unusual aetiologies
and care of the lower limb for
community practitioners

A Masterclass with Fran Worboys

This
programme
can count for
up to **5 hours**
of participatory
learning for
revalidation

About your Masterclass

At Accelerate, education matters to us – a lot. It is an important part of our work. It enables transformations in local services, improved healing rates and patient experience.

In this live virtual Masterclass Fran Worboys, Accelerate Academy's Clinical Nurse Consultant, will draw upon more than 40 years of clinical nursing experience to explore the management of common lower limb skin conditions and how to recognise unusual aetiologies through accurate assessment.

Knowing how to recognise common skin conditions will aid the practitioner in making accurate and targeted treatment decisions including choice of topical preparations. It will enable informed discussion within the multidisciplinary team and assist in recognising when referral to a medical practitioner is required.

The Masterclass is suitable for clinicians who manage patients with lower limb wounds and wish to expand their skills and knowledge.

Fran regularly presents her work at conferences and events in the wound management arena and is recognised as an innovator and leader in her field.

Learning outcomes

- Identify the structures and key components within the epidermis and dermis
- Explain the principles behind maintaining an effective skin barrier function
- Recognise common skin disorders and how management may be optimised
- Identify atypical ulceration, safety netting and escalation when caring for a patient with unusual aetiologies

Dates and times

09:30 - 15:30 [See website for dates.](#)

How the course is run

Our virtual sessions are held using the MS Teams virtual learning environment (VLE) with informative webinars, discussion and Q & A.

We have an Academy Moderator at Accelerate who can support you in digitally preparing for the course should you need assistance.

You will need to have access to a laptop, tablet or computer with video and sound capability so you can access the VLE effectively. You will also need peace and quiet.

We use the chat, break out and polling features of our VLE during the virtual course to make the sessions interactive and we would ask you to participate as if in a face to face situation.

Course fee

£125 + VAT (£150)

To book
