Accelerate

Transforming wound
and lymphoedema care

# Learning with **Accelerate Academy**

## Remote clinical assessment in wound care for registered health care practitioners

This programme can count for up to **6 hours** of participatory learning for revalidation

# About your Course

At Accelerate, education matters to us – a lot. It is an important part of our work. It enables transformations in local services, improved healing rates and patient experience.

This practical online workshop equips registered health care practitioners with the skills and confidence to deliver safe, effective remote wound care assessments. Participants will learn theory of how to apply structured consultation models, adapt communication techniques for telephone and video reviews, and conduct holistic assessments that recognise red flags despite limited visual cues. The session strengthens clinical reasoning in remote contexts, supports robust documentation and escalation, and explores the ethical and professional considerations unique to virtual wound care practice. By the end, practitioners will be able to deliver accountable, person centred remote assessments that enhance continuity and quality of care.

## Learning outcomes

- Demonstrate the ability to apply structured consultation models when conducting remote wound care assessments.
- Adapt verbal and non verbal communication skills effectively for telephone and video based consultations.
- Carry out safe, holistic remote assessments with accurate identification of red flags in wound care.
- Use clinical reasoning to make sound decisions when visual and physical cues are limited.
- Produce clear, defensible documentation and escalate concerns appropriately following remote consultations.
- Critically reflect on the limitations, ethical considerations, and professional accountability associated with remote wound care practice.

## Dates and times

09.00-16.00

29 June 2027

## How the course is run

Our virtual sessions are held using the MS Teams virtual learning environment (VLE) with informative webinars, discussion and Q & A. We have an Academy Moderator who can support you in digitally preparing for the course should you need assistance.

You will need to have access to a laptop, tablet or computer with video and sound capability so you can access the VLE effectively. You will also need peace and quiet.

We use the chat, break out and polling features during the virtual course to make the sessions interactive and we would ask you to participate as if in a face to face situation.

## Course fee

£175 + VAT (£210)

## To book

Book and pay on-line on our website or email us at education@acceleratecic.com
